

# Visitation at Lexington Medical Center

## Masks Required at All Times

### NO EXCEPTIONS

- No visitors for patients with COVID-19
- No visitors for patients suspected of or testing positive for COVID-19
- No minors under the age 16

### APPROVED VISITORS

- All approved visitors must wear a face mask while in any Lexington Medical Center facility.
- Visitors must keep their masks on at all times, including when visiting patients in their rooms.
- All approved visitors will also be screened by staff before entering any Lexington Medical Center facility and may have to leave based on their screening results.

### ► EMERGENCY DEPARTMENT

**One visitor** is allowed to accompany a non-COVID-19 patient being treated in the Emergency department. If the lobby reaches capacity, visitors will not be allowed to stay with patients. The visitor must stay in the patient's exam room at all times and may help settle the patient into his or her inpatient room if admitted. Use the direct entrance to the Emergency department upon arrival.

### ► INPATIENTS (NON-COVID-19 PATIENTS)

**Visitors** are allowed to visit inpatients in non-COVID-19 units during the hours of 7:00 a.m. to 8:00 p.m., seven days per week. Depending on a patient's tower location, please use the Main Entrance or the South Entrance of the hospital.

### ► OBSTETRICS

**Two support persons** are permitted while the non-COVID-19 patient is in labor. **One support person** is allowed for C-sections. Support persons may not change. Visitors to the Mother/Baby unit are allowed during the hours of 7:00 a.m. to 8:00 p.m., seven days per week.

### ► SPECIAL CARE NURSERY

**One visitor is permitted with the birth parent or her support person** with an identification bracelet during the hours of 7:00 a.m. to 8:00 p.m., seven days a week. Birth parent and her support person with an identification bracelet are permitted at any time, but no more than two visitors are allowed at the infant's bedside. COVID-19 vaccination is strongly encouraged for visitors of special care infants.

### ► SURGICAL/PROCEDURAL AREAS

(INPATIENT AND OUTPATIENT)

**Two visitors** are permitted in the specified lobby during a patient's surgery or procedure at the main campus. They may help settle the patient into his or her room if admitted. For procedures at the main hospital, use the Main Entrance upon arrival. **One visitor** is allowed in the specified lobby during a patient's surgery or procedure at other Lexington Medical Center facilities. Patients and visitors should use the Main Entrance to those buildings upon arrival.

Thank you for helping us keep our patients and staff safe.
